ART + CLIMATE = CHANGE

This Changes EVERYTHING

Exhibition March 10 - April 22, 2023

 Chatham-Kent | Arts+Culture

ARTspace Gallery and **The Lower Thames Valley Conservation Authority** invite you to submit one piece of art in any medium to the upcoming community arts show and sale addressing Climate Change.

When it comes to Climate and the Environment, our first thought may turn to satellite images of polar icecaps or infrared maps illustrating rising temperatures across the globe. In truth, climate change is happening much closer to home.

It is time to reimagine the kind of world in which we wish to live. In the final analysis and above all else, it is a cultural question. The science is there. Technology advances every day. What is needed, however, is the willingness to harness our capabilities and address the problems we have created; to imagine new and better ways of being in the world.

Art has a huge role to play in this.

Participants are encouraged to create works that speak to the climate crisis as well as activate and strengthen community connections. Artists are encouraged to search out ways in which this crisis can be approached on a local level and reflect lived experience.

People's Choice Award: The William Street Café has generously sponsored \$200 cash for the People's Choice Award.

Sponsor: The Lower Thames Valley Conservation Authority will sponsor this event. Watch for additional details soon.
