

William Braithwaite: peace + love

June 6 – July 7, 2018

Opening Reception: Thursday, June 7 at 7PM

This exhibition features a new series of digital prints in an endless variety of kaleidoscope mandalas. These works explore a journey of discovery through the unknown universe through pattern and colour, meditating on life and the world's deep and dark mysteries. The artist, currently overseas, invites the public to exchange sentiments for the receipt of one of his unique pieces.
